🪪 About me

I am a 25-year-old programming student looking for new opportunities in Stockholm.
I am currently studying app development remotely at Stockholms Tekniska Institut and will graduate this spring.

My big passions are gaming and programming, I also have an interest in people and have many years of experience in the service industry.

I am hardworking, curious, and open to everything new. I would like the opportunity to learn and contribute by working together with you.

🎓 Education

App Development   2021 – 2023
Stockholms Tekniska Institut
The studies are mainly focused on mobile app development. I've also studied project management, UX, UI, and how to build prototypes in Figma.

Programming   2020 – 2021
Kvinnofolkhögskolan
I studied the fundamentals of programming. I frequently used UML for projects and used Scrum to sufficiently plan a wedding with a group of classmates.

Society & Behavioral Science   2015 – 2016
Birkagårdens Folkhögskola

Art & Design   2013 – 2015
Cybergymnasiet

💼 Work experience

Programming Intern   January 2023 – April 2023
Capacio AB
I mainly focused on building and improving the company website and design, using React.js, Vue.js, Tailwind CSS and Figma.

Warehouse Worker   April 2022 – September 2022
Mopedrenovering

Programming Intern   April 2021 – May 2021
Albert Schapiro Autonomo
I mainly focused on building and improving the company website, using React.js

Claims Adjuster   February 2020 – July 2020
AmTrust Insurance Services Sweden

Sales Advisor   October 2019 – January 2020
H&M

Customer Service Employee & Insurance Agent   August 2018 – April 2019
mySafety Försäkringar

Additional work experience   July 2016 – August 2018
I worked as a Barista and Restaurant Staff at MAX Hamburgare, Espresso House, and Burger

King.
